Christer Schörling presents Fallback Systems at the ATM Conference in Istanbul

On 3 June 2015 Si ATM Managing Director Christer Schörling held a presentation about Air Traffic Management (ATM) Fallback Systems (FBS), at the Istanbul ATM Conference organized by Business Sweden. The Conference was held at the Consulate General of Sweden in Istanbul.

After the presentation Mr. Schörling participated in a panel to debate the current market of ATM system suppliers, and the growing need of Fallback Systems to ensure sustainable and continuous ATM operations.

The presentation can be found **here**.

About Business Sweden

Business Sweden facilitates and promotes the growth of Swedish companies abroad and investment opportunities for foreign companies in Sweden. Business Sweden was founded on January 1, 2013, by a merger of the Swedish Trade Council and Invest Sweden. With offices in 50 countries, we facilitate and promote the growth of Swedish companies abroad and investment opportunities for foreign companies in Sweden.

Business Sweden's aim is to strengthen and promote Sweden as an attractive, innovative and competitive business partner. We support Swedish companies in reaching export markets and create business opportunities for small and medium-sized enterprises to grow internationally.

Our mission is also to attract foreign direct investment to Sweden and to facilitate for international companies to do business in Sweden. We give support when it comes to different kinds of investments such as Greenfield establishments, expansion of existing business, strategic partnerships with Swedish companies, capital investments and M&A's. Whether the interest is to gain access to the Swedish market or world class R&D in leading industries, we connect international companies with investment opportunities in Sweden and support them in setting up their businesses

Business Sweden is owned by the Swedish government and the industry, represented by the Ministry for Foreign Affairs and the Swedish Foreign Trade Association. The shared ownership provides access to contacts and networks at all levels.

About Si ATM

Si ATM AB is an Air Traffic Management System Integration company with over 30 years of experience in installation of operational systems and simulators to Air Navigation Service Providers, Training Institutes, and other aviation organisations throughout the world.

Si ATM is located in Sundbyberg, which is close to Stockholm in Sweden. The company has specialised in development of highly advanced technology for Tower, Approach, and Area Control Centres, integrated into variety of other systems.

The company's main achievements are the maintenance of the Moscow ACC operating system, which went operational in 1981. Quality ATM technology based on Eurocontrol requirements has been implemented in 1996-2014 in Riga, Latvia, in 2004 in Bahrain, Middle East, more recently 2012 in Moldavia, 2013 in Hong Kong and 2014 in Croatia.

Si ATM is known for its high quality and low risk integration of ATM systems. Flexibility and low cost maintenance solutions distinguish the company in the competitive market of Air Traffic Management.
